## Introductory Notes

### 1.0 Analytical Balance Sheet of the Monetary Survey

The banking system, from which the data presented in this publication is obtained, consists of the Central Bank of Somalia (CBS), thirteen domestic commercial banks, and one foreign bank branch. It is important to note that financial institutions such as Mobile Money Operators, Insurance Companies, and Microfinance Institutions are not covered in the data for this edition, however, data for these financial institutions will be reported in subsequent releases.

Tables 1.1 and 1.2 present the monthly analytical balance sheets of the Central Bank of Somalia (CBS) and Other Depository Corporations (Commercial Banks).

The Depository Corporation Survey (DCS) data presented in Table 1.3 is derived by consolidating data from both the Central Bank (Table 1.1) and Commercial Banks (Table 1.2). These tables provide summary information that facilitates the preparation of comprehensive reports such as the DCS. The consolidation also supports effective cross-checking and validation of the summary reports.
